

1. Title:

Preservation and Promotion of Indian Knowledge Tradition

2. Objective:

The primary objective of this best practice is to inculcate awareness and appreciation of Indian culture, values, ethics, and spiritual wisdom among students. Through academic, cultural, and experiential activities, the institution aims to integrate Indian Knowledge Tradition with higher education, thereby fostering holistic personality development, moral discipline, and cultural pride in students.

3. Context:

In the contemporary educational and social environment, students are increasingly influenced by materialism, stress, and a disconnect from traditional values. Rapid globalization and technological advancement often result in diminished understanding of indigenous knowledge systems. In this context, there is a strong need to reconnect students with India's cultural heritage, philosophical traditions, and value-based education to ensure balanced intellectual and emotional growth.

4. Practice:

The institution regularly organizes a series of structured activities under the Indian Knowledge Tradition initiative. These include the Induction Ceremony, Guru Purnima Festival, Shri Krishna Janmashtami, Gita Jayanti, Hindi Diwas, International Literacy Day, Akshay Urja Diwas, International Yoga and Meditation Day, World Meditation Day, and National Mathematics Day. In addition, special lectures on discipline, inspirational personalities, and interactive sessions between the Principal and students are conducted. Academic enrichment is ensured through essay writing, speech, quiz, poster, technical quiz competitions, and Indian Culture Knowledge Examination at college and district levels.

5. Evidence of Success:

Active participation of students in cultural programs, lectures, competitions, and examinations reflects increased awareness and engagement with Indian Knowledge Tradition. Students demonstrated improved discipline, confidence, and interest in Indian philosophy, language, and cultural values. The successful conduct of multiple events throughout the academic session indicates institutional commitment and student involvement.

6. Challenges and Required Resources:

Maintaining sustained student interest amidst academic pressure and modern distractions remains a challenge. Adequate resource persons with expertise in Indian Knowledge Systems, financial support for organizing events, and continuous faculty coordination are essential for the effective implementation and long-term sustainability of this best practice.
